PROFESSIONAL SUMMARY

Software Engineer with 7+ years of experience designing and building backend systems, RESTful APIs, and microservices across FinTech, EdTech, AdTech, and Enterprise SaaS products. Skilled in PHP (Laravel, CodeIgniter, Slim), Node.js/Express, MySQL, MongoDB, and payment gateway integrations (Razorpay, PayU, BillDesk, Cashfree). Experienced in automated web/API testing (Selenium, Playwright), monitoring (ELK, Grafana), and delivering secure, scalable applications used by cross-functional business teams.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Java, HTML, CSS

Frameworks: Laravel, CodeIgniter, Slim, CakePHP, Express.js, React.js

Databases: MySQL, PostgreSQL, MongoDB, Redis, Hadoop

Web Technologies: Bootstrap, AJAX, jQuery, WebSockets, RESTful APIs

Tools & Platforms: Git, Bitbucket, Swagger, Docker, Kubernetes, Jira, Elasticsearch (ELK), Grafana, Linux, AWS (S3, SES), Claude, AI/LLM

Other Skills: Selenium, Playwright, Web Scraping, Microservices, API Development, Payment Gateway Integration

Domain Experience: FinTech, AdTech, EdTech, Pest Control / Enterprise SaaS

WORK EXPERIENCE

Affinity

Oct 2025 – Present

Software Engineer | PHP, MySQL, Java, Selenium, Hadoop

Mumbai, India

- Automated cross-country website testing using Selenium, Playwright, and Lightpanda with IPRoyal proxies, validating URL redirection accuracy across multiple regions.
- Built stored procedures to list, add, and update Brand Master URLs, and implemented country-based routing logic for brand landing pages.
- Enhanced the UI for managing country-wise brand URLs, keeping frontend data synchronized with the backend.
- Ran large-scale bulk URL test suites, maintaining stable and reliable automation pipelines.

Neosoft Technologies

Feb 2023 – Oct 2025

Software Engineer | Laravel, MySQL, Microservices, Node.js/Express, WebSockets, ELK, Grafana

Mumbai, India

- Built and maintained 8+ microservices (User, Payment, Loan, Third-Party, Event, Master, User Gateway, External Gateway) powering an end-to-end digital lending platform.
- Developed user onboarding flows including KYC document upload, Aadhaar/PAN verification, CIBIL score API integration, and consent tracking.
- Engineered a payment microservice integrating Razorpay, PayU, Paynimo, Cashfree, and Yes Bank, supporting UPI, e-collect, and bank transfer methods.
- Implemented loan repayment calculations, third-party PAN/eligibility verification, and webhook-driven notifications for active loans.
- Purple Pharma:** Built a role-based dashboard (10+ roles including BO, SBO, ABM, RBM, ZSM, NSM, GM, VP) for managing doctors, chemists, products, and gifting, letting field reps file Daily Call Reports and track visits, campaigns, and expenses.
- Implemented a reassignment workflow for reallocating doctors, chemists, and subordinates when field staff exit, plus a cross-module approval matrix and role-based access control.
- Tap2Crack Chat:** Developed a real-time chat application for live classes with room creation, 1:1 messaging, moderator permissions, and in-app notifications.
- Tap2Crack Admin:** Built an admin panel managing roles, courses, exams, and study materials, including a Test Series feature with a drag-and-drop question builder and a folder-based course content hierarchy.
- Tap2Crack Blog:** Built a CMS enabling category management and blog authoring that auto-syncs to the public blog site across homepage, category, and article views.

- Built a URL shortener supporting device-based redirection (web only, app only, app-then-web) with a dashboard for tracking and managing shortened links.

Rentokil PCI
PHP Developer | PHP, CodeIgniter, MySQL

Nov 2021 – Mar 2023
Mumbai, India

- **Indent Portal:** Managed product licenses with CRUD operations, expiry alerts, and a financial threshold-based approval matrix; migrated the system to Laravel.
- **TRF:** Built a contract-status tracking dashboard with a 5-level approval workflow and in-app chat for clarifications.
- **Credit Notes Portal:** Enabled credit note requests with Excel data import and a multi-level approval matrix for CSEs.
- **PayEasy:** Integrated Razorpay/BillDesk for payments, with payment links, barcodes, email notifications, and real-time webhook confirmations.
- **Lead Tracker:** Built lead management dashboards with Google Drive integration, Excel/CSV report exports, and a lead-scoring API.
- Built 4 field-data collection apps (NKA, SSD, HYG, PSD) for Daily Sales Performance tracking, with Google login and JWT authentication.
- **Myclaim:** Built an expense-claim portal with document uploads, multi-level approvals, and comment-enabled decision options.

Ebrandz LLP
Jr. PHP Developer | CodeIgniter, Slim, MySQL, MongoDB

Jun 2019 – Jun 2021
Mumbai, India

- Built custom daily-report mailers and a PPC reporting dashboard with multiple charts and export functionality.
- Integrated WooForm, Google Forms, and JotForm via webhooks; scraped third-party ratings and review data using scheduled cron jobs.
- Developed RESTful APIs (Slim) for Version7 platform features across a CodeIgniter frontend/backend, using MySQL and MongoDB for storage.

ADDITIONAL PROJECTS

Partner Portal | OpenCart, MySQL

Mar 2023 – Jul 2023

- Built an AI-powered vendor management platform enabling companies to manage vendor product orders through role-based dashboards and dynamic public forms.
- Synced data between Celigo, NetSuite, and Partner Portal via custom APIs and webhooks; integrated GST validation and AWS S3 document uploads.

ODSAPI | Laravel, MySQL

Mar 2023 – Jul 2023

- Built APIs to fetch and sync Shopify data (products, sales, orders, payments) to MongoDB and NetSuite for partner companies.

Indian Oil Analytics | CakePHP, MySQL, PostgreSQL

Aug 2021 – Oct 2021

- Built a reporting dashboard with daily/weekly/monthly views, CSV/Excel export, and automated report distribution across area, city, state, and country levels.

Personal Projects | Laravel, CodeIgniter, MySQL, MongoDB

2019 – 2022

- Built an ad marketplace platform, a computer-class management system, an MLM platform with hierarchical revenue dashboards, and a gifting e-commerce site.

EDUCATION

KPB Hinduja College
Bachelor of Computer Applications (BCA)

2016 – 2019
Mumbai, India

CERTIFICATIONS

Web Designing and PHP Development – Asterix Solution (2019)

Big Data Hadoop Development – Asterix Solution (2018)

Core Java and Advanced Java Development – Asterix Solution (2017)

Diploma in Computer Application, Software Development and Hardware – IT Infotech (2016)
